MESSAGE FROM THE VICE-CHANCELLOR

It is heartening to know that Multanimal Modi College, Modinagar is bringing out its quarterly Newsletter. It is a commendable effort aimed at harnessing creative skills of the students by providing them a forum to express their views on various important issues. I wish the Newsletter go a long way in accomplishing the goal of value education.

I convey my good wishes and felicitations to the Principal, members of faculty and students for bringing out such a prestigious publication.

(N.K. Taneja)
Vice-Chancellor

MESSAGE FROM THE HONORABLE CHAIRMAN

It gives me great pleasure to know that MM College is bringing out its latest newsletter. The newsletter provides a worthy platform to showcase the budding talents of the institution, as well as various activities organized by the staff. My best wishes to the editorial team.

Dr. D.K. Modi
Chairman

HEALTH CORNER

Nirgundi (*Vitex negundo*) is a deciduous shrub found in many parts of the globe. The word nirgundi derived from Sanskrit means keeping the body free from all diseases. It is believed that the plant originated in India and the Philippines. There is no reference to nirgundi in the Vedas but found in post-Vedic documents. The plant is used in basketry, dyeing, fuel, food, stored-grain protectant, field pesticide, growth promoter, manure, as medicine for poultry, livestock, and humans. It is also used in all systems of treatment – Ayurveda, Unani, Siddha, Homeopathy, and Allopathy and seen in folk medicine of India, Bangladesh, China, Philippines, Sri Lanka, and Japan. It is used to treat ailments like headache, migraine, skin infection, wounds, swelling, asthmatic pains, male and female sexual and reproductive problems. It is taken in a variety of ways, both internally and externally. The whole plant, leaves, leaf oil, roots, fruits, and seeds are administered in the treatment of specific diseases.
